(the “Company”, “we”, “our” and “us”), BCSF Advisors, LP (the “Advisor”) and/or Bain Capital Credit, LP and its affiliated advisers (collectively, “Bain Capital Credit”). Such statements involve known and unknown risks, uncertainties and other factors and undue reliance should not be placed thereon. Certain information contained in this Quarterly Report constitutes “forward-looking statements,” which can be identified by the use of forward-looking terminology such as “may,” “will,” “should,” “seek,” “expect,” “anticipate,” “project,” “estimate,” “intend,” “continue,” “target,” or “believe” or the negatives thereof or other variations thereon or comparable terminology. Due to various risks and uncertainties, actual events or results or the actual performance of the Company may differ materially from those reflected or contemplated in such forward-looking statements. These statements are not guarantees of future performance and are subject to risks, uncertainties, and other factors, some of which are beyond our control and are difficult to predict, that could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements including, without limitation, the risks, uncertainties and other factors we identify in the section entitled Part I, “Item 1A. Risk Factors” in our Annual Report on Form 10-K (the “Annual Report”) for the fiscal year ended December 31, 2025 and in our filings with the Securities and Exchange Commission (the “SEC”).

Although we believe that the assumptions on which these forward-looking statements are based are reasonable, some of those assumptions may be based on the work of third parties and any of those assumptions could prove to be inaccurate; as a result, the forward-looking statements based on those assumptions also could prove to be inaccurate. In light of these and other uncertainties, the inclusion of a projection or forward-looking statement in this Quarterly Report should not be regarded as a representation by us that our plans and objectives will be achieved. These risks and uncertainties include those described or identified in the section entitled Part I, “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2025. Investors should not place undue reliance on these forward-looking statements, which apply only as of the date of this Quarterly Report. We do not undertake any obligation to update or revise any forward-looking statements or any other information contained herein, except as required by applicable law. The safe harbor provisions of Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), which preclude civil liability for certain forward-looking statements, do not apply to the forward-looking statements in this Quarterly Report because we are an investment company.

## **BAIN CAPITAL SPECIALTY FINANCE, INC.**

### **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS** **(in thousands, except share and per share data)** **(Unaudited)**

#### **Note 1. Organization**

Bain Capital Specialty Finance, Inc. (the “Company”, “we”, “our” and “us”) was formed on October 5, 2015 and commenced investment operations on October 13, 2016. The Company has elected to be treated and is regulated as a business development company (a “BDC”) under the Investment Company Act of 1940, as amended (the “1940 Act”). In addition, for tax purposes the Company has elected to be treated and intends to operate in a manner so as to continuously qualify as a regulated investment company (a “RIC”) under Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”). The Company is externally managed by BCSF Advisors, LP (the “Advisor”), our investment adviser that is registered with the Securities and Exchange Commission (the “SEC”) under the Investment Advisers Act of 1940, as amended (the “Advisers Act”). The Advisor also provides the administrative services necessary for the Company to operate (in such capacity, the “Administrator”).

On November 19, 2018, the Company closed its initial public offering (the “IPO”), which was a Qualified IPO, issuing 7,500,000 shares of common stock at a public offering price of \$20.25 per share. Shares of common stock of the Company began trading on the New York Stock Exchange under the symbol “BCSF” on November 15, 2018.

The Company’s primary focus is capitalizing on opportunities within Bain Capital Credit’s Senior Direct Lending Strategy, which seeks to provide risk-adjusted returns and current income to its investors by investing primarily in middle-market companies with between \$10.0 million and \$150.0 million in annual earnings before interest, taxes, depreciation and amortization (“EBITDA”). The Company may, from time to time, invest in larger or smaller companies. The Company focuses on senior investments with a first or second lien on collateral and strong structures and documentation intended to protect the lender (including “unitranche” loans, which are loans that combine both senior and mezzanine debt). The Company generally seeks to retain effective voting control in respect of the loans or particular classes of securities in which the Company invests through maintaining affirmative voting positions or negotiating consent rights that allow the Company to retain a blocking position. The Company may also invest in mezzanine debt and other junior securities, including common and preferred equity and in secondary purchases of assets or portfolios on an opportunistic basis, but such investments are not the principal focus of the Company’s investment strategy. The Company may also invest, from time to time, in distressed debt, debtor-in-possession loans, structured products, structurally subordinate loans, investments with deferred interest features, zero-coupon securities and defaulted securities.

The Company’s operations are comprised of a single operating and reportable business segment, asset management. The Chief Operating Decision Maker (the “CODM”) consists of the Company’s Chief Executive Officer and Chief Financial Officer, as these are the individuals responsible for determining the Company’s investment strategy, capital allocation, expense structure, launch and dissolution and entering into significant contracts on behalf of the Company. The CODM uses key metrics to determine how to allocate resources and in determining the amount of dividends to be distributed to the Company’s stockholders. Key metrics include, but are not limited to, net investment income and net increase in net assets resulting from operations that are reported on the Consolidated Statements of Operations, Financial Highlights reported in Note 11, underlying investment cost and market value as disclosed on the consolidated schedule of investments and expected yield relative to the risk of the individual assets as disclosed in the composition of the investment portfolio and associated yield table. As the Company’s operations comprise of a single reporting segment, the segment assets are reflected on the accompanying consolidated balance sheet as “total assets” and the significant segment expenses are listed on the accompanying Consolidated Statements of Operations.

#### **Note 2. Summary of Significant Accounting Policies**

##### **Basis of Presentation**

The Company’s Consolidated Financial Statements have been prepared in accordance with generally accepted accounting principles in the United States of America (“US GAAP”). The Company’s Consolidated Financial Statements and related financial information have been prepared pursuant to the requirements for reporting on Form 10-Q and Regulation S-X. These Consolidated Financial Statements reflect adjustments that in the opinion of the Company are necessary for the fair statement of the financial position and results of operations for the periods presented herein and are not necessarily indicative of the full fiscal year. The Company has determined it meets the definition of an investment company and follows the accounting and reporting guidance in the Financial Accounting Standards Board Accounting Standards Codification (“ASC”) Topic 946 — Financial Services — Investment

Companies (“ASC 946”). The functional currency of the Company is U.S. dollars and these Consolidated Financial Statements have been prepared

in that currency. Certain prior period information has been reclassified to conform to the current period presentation and this had no effect on the Company's consolidated financial position or the consolidated results of operations as previously reported.

The information included in this Form 10-Q should be read in conjunction with the audited financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2025.

### **Basis of Consolidation**

The Company will generally consolidate any wholly, or substantially, owned subsidiary when the design and purpose of the subsidiary is to act as an extension of the Company's investment operations and to facilitate the execution of the Company's investment strategy. Accordingly, the Company consolidated the results of its subsidiaries BCSF I, BCSF II C, BCSF CFSH, LLC, BCSF CFS, LLC and BCC Middle Market CLO 2019-1, LLC in its Consolidated Financial Statements. All intercompany transactions and balances have been eliminated in consolidation. Since the Company is an investment company, portfolio investments held by the Company are not consolidated into the Consolidated Financial Statements. The portfolio investments held by the Company (including its investments held by consolidated subsidiaries) are included on the Consolidated Statements of Assets and Liabilities as investments at fair value.

### **Use of Estimates**

The preparation of the Consolidated Financial Statements in conformity with US GAAP requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Consolidated Financial Statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates and such differences could be material.

### **Valuation of Portfolio Investments**

The Advisor shall value the investments owned by the Company, subject at all times to the oversight of the Company's Board of Directors (the "Board"). The Advisor shall follow its own written valuation policies and procedures as approved by the Board when determining valuations. A short summary of the Advisor's valuation policies is below.

Investments for which market quotations are readily available are typically valued at such market quotations. Pursuant to Rule 2a-5 under the 1940 Act, the Board designates the Advisor as Valuation Designee to perform fair value determinations for the Company for investments that do not have readily available market quotations. Market quotations are obtained from an independent pricing service, where available. If a price cannot be obtained from an independent pricing service or if the independent pricing service is not deemed to be current with the market, certain investments held by the Company will be valued on the basis of prices provided by principal market makers. Generally, investments marked in this manner will be marked at the mean of the bid and ask of the independent broker quotes obtained. To validate market quotations, the Company utilizes a number of factors to determine if the quotations are representative of fair value, including the source and number of quotations. Debt and equity securities that are not publicly traded or whose market prices are not readily available will be valued at a price that reflects such security's fair value.

With respect to unquoted portfolio investments, the Company will value each investment considering, among other measures, discounted cash flow models, comparable company multiple models, comparisons of financial ratios of peer companies that are public, and other factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, the Company will use the pricing indicated by the external event to corroborate and/or assist us in its valuation. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may differ significantly from the values that would have been used had a readily available market value existed for such investments, and the differences could be material.

With respect to investments for which market quotations are not readily available, in particular, illiquid/hard to value assets, the Advisor will typically undertake a multi-step valuation process, which includes among other things, the below:

- The Company's quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals of the Advisor responsible for the portfolio investment; in conjunction with the Company's portfolio management and valuation team.

- Preliminary valuation conclusions are then documented and discussed with the Company's senior management and the Advisor;

- Generally, investments that constitute a material portion of the Company’s portfolio are periodically reviewed by an independent valuation firm; and
- The Board and Audit Committee provide oversight with respect to the valuation process, including requesting such materials as they deem appropriate.

In following this approach, the types of factors that are taken into account in the fair value pricing of investments include, as relevant, but are not limited to: comparison to publicly traded securities, including factors such as yield, maturity and measures of credit quality; the enterprise value of a portfolio company; the nature and realizable value of any collateral; the portfolio company’s ability to make payments and its earnings and discounted cash flows; and the markets in which the portfolio company does business. In cases where an independent valuation firm provides fair valuations for investments, the independent valuation firm provides a fair valuation report, a description of the methodology used to determine the fair value and their analysis and calculations to support their concluded ranges.

The Company applies ASC Topic 820, Fair Value Measurement (“ASC 820”), which establishes a framework for measuring fair value in accordance with US GAAP and required disclosures of fair value measurements. The fair value of a financial instrument is the amount that would be received in an orderly transaction between market participants at the measurement date. The Company determines the fair value of investments consistent with its valuation policy. The Company discloses the fair value of its investments in a hierarchy which prioritizes and ranks the level of market observability used in the determination of fair value. In accordance with ASC 820, these levels are summarized below:

- Level 1 — Valuations based on quoted prices (unadjusted) in active markets for identical assets or liabilities at the measurement date.
- Level 2 — Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.
- Level 3 — Valuations based on inputs that are unobservable and significant to the fair value measurement.

A financial instrument’s level within the hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuations of Level 2 investments are generally based on quotations received from pricing services, dealers or brokers. Consideration is given to the source and nature of the quotations and the relationship of recent market activity to the quotations provided.

Transfers between levels, if any, are recognized at the beginning of the reporting period in which the transfers occur. The Company evaluates the source of inputs used in the determination of fair value, including any markets in which the investments, or similar investments, are trading. When the fair value of an investment is determined using inputs from a pricing service (or principal market makers), the Company considers various criteria in determining whether the investment should be classified as a Level 2 or Level 3 investment. Criteria considered includes the pricing methodologies of the pricing services (or principal market makers) to determine if the inputs to the valuation are observable or unobservable, as well as the number of prices obtained and an assessment of the quality of the prices obtained. The level of an investment within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes “observable” requires significant judgment.

The fair value assigned to these investments is based upon available information and may fluctuate from period to period. In addition, it does not necessarily represent the amount that might ultimately be realized upon sale. Due to inherent uncertainty of valuation, the estimated fair value of investments may differ from the value that would have been used had a ready market for the security existed, and the difference could be material.

### **Securities Transactions, Revenue Recognition and Expenses**

The Company records its investment transactions on a trade date basis. The Company measures realized gains or losses by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment, using the specific identification method. Interest income, adjusted for amortization of premium and accretion of discount, is recorded on an accrual basis. Discount and premium to par value on investments acquired are accreted and amortized, respectively, into interest income over the life of the respective investment using the effective interest method. Commitment fees are recorded on an accrual basis and recognized as

interest income. Loan origination fees, original issue discount and market discount or premium are capitalized and amortized against or accreted into interest income using the effective interest method or straight-line method, as applicable. For the Company's investments in revolving bank loans, the cost basis of the investment purchased is adjusted for the cash received for the discount on the total balance

committed. The fair value is also adjusted for price appreciation or depreciation on the unfunded portion. As a result, the purchase of commitments not completely funded may result in a negative value until it is offset by the future amounts called and funded. Upon prepayment of a loan or debt security, any prepayment premium, unamortized upfront loan origination fees and unamortized discount are recorded as interest income.

Certain investments may have contractual payment-in-kind (“PIK”) interest or dividends. PIK represents accrued interest or accumulated dividends that are added to the loan principal of the investment on the respective interest or dividend payment dates rather than being paid in cash and generally becomes due at maturity or upon being called by the issuer. PIK is recorded as interest or dividend income, as applicable. If at any point the Company believes PIK is not expected to be realized, the investment generating PIK will be placed on non-accrual status.

Dividend income on preferred equity investments is recorded on an accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. Dividend income on common equity investments is recorded on the record date for private portfolio companies and on the ex-dividend date for publicly traded portfolio companies. Distributions received from an equity interest, limited liability company or a limited partnership investment are evaluated to determine if the distribution should be recorded as dividend income or a return of capital. For the three months ended March 31, 2026 and 2025, the Company recorded \$6.6 million and \$6.5 million, respectively, of dividend income, of which, \$0.6 million and \$0.1 million, respectively, related to PIK dividends.

Certain structuring fees and amendment fees are recorded as other income when earned. Administrative agent fees received by the Company are recorded as other income when the services are rendered.

Expenses are recorded on an accrual basis.

### **Non-Accrual Loans**

Loans or debt securities are placed on non-accrual status when there is reasonable doubt that principal or interest will be collected. Accrued interest generally is reversed when a loan or debt security is placed on non-accrual status. Interest payments received on non-accrual loans or debt securities may be recognized as income or applied to principal depending upon management’s judgment. Non-accrual loans and debt securities are restored to accrual status when past due principal and interest are paid and, in management’s judgment, principal and interest payments are likely to remain current. The Company may make exceptions to this treatment if a loan has sufficient collateral value and is in the process of collection. As of March 31, 2026, there were eleven loans from six issuers on non-accrual. As of December 31, 2025, there were twelve loans from six issuers on non-accrual.

### **Distributions**

Distributions to common stockholders are recorded on the record date. The amount to be distributed, if any, is determined by the Board each quarter, and is generally based upon the earnings estimated by the Advisor. Distributions from net investment income and net realized capital gains are determined in accordance with U.S. federal income tax regulations, which may differ from those amounts determined in accordance with US GAAP. The Company may pay distributions to its stockholders in a year in excess of its investment company taxable income and net capital gain for that year and, accordingly, a portion of such distributions may constitute a return of capital for U.S. federal income tax purposes. This excess generally would be a tax-free return of capital in the period and generally would reduce the stockholder’s tax basis in its shares. These book/tax differences are either temporary or permanent in nature. To the extent these differences are permanent; they are charged or credited to paid-in capital in excess of par, accumulated undistributed net investment income or accumulated net realized gain (loss), as appropriate, in the period that the differences arise. Temporary and permanent differences are primarily attributable to differences in the tax treatment of certain loans and the tax characterization of income and non-deductible expenses.

The Company intends to timely distribute to its stockholders substantially all of its annual taxable income for each year, except that the Company may retain certain net capital gains for reinvestment and, depending upon the level of the Company’s taxable income earned in a year, the Company may choose to carry forward taxable income for distribution in the following year and incur applicable U.S. federal excise tax and pay a 4% tax on such income, as required. To the extent that we determine that our estimated current year taxable income will be in excess of estimated dividend distributions for the current year from such income, we accrue excise tax, if any, on estimated excess taxable income as such taxable income is earned. For the three months ended March 31, 2026 and 2025, we recorded an expense of \$0.9 million and \$1.1 million, respectively for U.S. federal excise tax.

The specific tax characteristics of the Company's distributions will be reported to stockholders after the end of the calendar year. All distributions will be subject to available funds, and no assurance can be given that the Company will be able to declare such distributions in future periods.

The Company distributes net capital gains (i.e., net long-term capital gains in excess of net short-term capital losses), if any, at least annually out of the assets legally available for such distributions. However, the Company may decide in the future to retain such capital gains for investment, incur a corporate-level tax on such capital gains, and elect to treat such capital gains as deemed distributions to stockholders.

### **Dividend Reinvestment Plan**

The Company has adopted a dividend reinvestment plan that provides for the reinvestment of cash dividends and distributions. Stockholders who do not “opt out” of the Company’s dividend reinvestment plan will have their cash dividends and distributions (net of applicable withholding tax) automatically reinvested in additional shares of the Company’s common stock, rather than receiving cash dividends and distributions.

### **Offering Costs**

Offering costs consist primarily of fees and expenses incurred in connection with the offering of shares, legal, printing and other costs associated with the preparation and filing of applicable registration statements. To the extent such expenses relate to equity offerings, these expenses are charged as a reduction of paid-in-capital upon each such offering.

### **Cash, Restricted Cash, and Cash Equivalents**

Cash and cash equivalents consist of deposits held at custodian banks, and highly liquid investments, such as money market funds, with original maturities of three months or less. Cash and cash equivalents are carried at cost or amortized cost, which approximates fair value. The Company may deposit its cash and cash equivalents in financial institutions and, at certain times, such balances may exceed the Federal Deposit Insurance Corporation insurance limits. Cash equivalents are presented separately on the consolidated schedules of investments. Restricted cash is collected and held by the trustee who has been appointed as custodian of the assets securing certain of the Company’s financing transactions.

### **Foreign Currency Translation**

The accounting records of the Company are maintained in U.S. dollars. The fair values of foreign securities, foreign cash and other assets and liabilities denominated in foreign currency are translated to U.S. dollars based on the current exchange rates at the end of each business day. Income and expenses denominated in foreign currencies are translated at current exchange rates when accrued or incurred. Unrealized gains and losses on foreign currency holdings and non-investment assets and liabilities attributable to the changes in foreign currency exchange rates are included in the net change in unrealized appreciation on foreign currency translation on the Consolidated Statements of Operations. Net realized gains and losses on foreign currency holdings and non-investment assets and liabilities attributable to changes in foreign currency exchange rates are included in net realized gain (loss) on foreign currency transactions on the Consolidated Statements of Operations. The portion of both realized and unrealized gains and losses on investments that result from changes in foreign currency exchange rates is not separately disclosed, but is included in net realized gain (loss) on investments and net change in unrealized appreciation on investments, respectively, on the Consolidated Statements of Operations.

### **Forward Currency Exchange Contracts**

The Company may enter into forward currency exchange contracts to reduce the Company’s exposure to foreign currency exchange rate fluctuations in the value of foreign currencies. A forward currency exchange contract is an agreement between two parties to buy and sell a currency at a set price on a future date. The Company does not utilize hedge accounting for its forward currency exchange contracts and as such the Company recognizes the value of its derivatives at fair value on the Consolidated Statements of Assets and Liabilities with changes in the net unrealized appreciation on forward currency exchange contracts recorded on the Consolidated Statements of Operations. Forward currency exchange contracts are valued using the prevailing forward currency exchange rate of the underlying currencies. Unrealized appreciation on forward currency exchange contracts is recorded on the Consolidated Statements of Assets and Liabilities by counterparty on a net basis, not taking into account collateral posted which is recorded separately, if applicable. Cash collateral maintained in accounts held by counterparties is included in collateral on derivatives on the Consolidated Statements of Assets and Liabilities. Notional amounts and the gross fair value of forward currency exchange contracts assets and liabilities are presented separately on the consolidated schedules of investments.

Changes in net unrealized appreciation are recorded on the Consolidated Statements of Operations in net change in unrealized appreciation on forward currency exchange contracts. Net realized gains and losses are recorded on the Consolidated Statements of

Operations in net realized gain (loss) on forward currency exchange contracts. Realized gains and losses on forward currency exchange contracts are determined using the difference between the fair market value of the forward currency exchange contract at the time it was

opened and the fair market value at the time it was closed or covered. Additionally, losses, up to the fair value, may arise if the counterparties do not perform under the contract terms.

### **Interest Rate Swaps**

The Company uses interest rate swaps to hedge some of the Company's fixed rate debt. The Company has designated each interest rate swap held as the hedging instrument in an effective hedge accounting relationship, and therefore the periodic payments and receipts are recognized as components of interest expense in the Consolidated Statements of Operations. Depending on the nature of the balance at period end, the fair value of the interest rate swap is either included as a derivative asset or derivative liability on the Company's Consolidated Statements of Assets and Liabilities. The change in fair value of the interest rate swap is offset by a change in the carrying value of the fixed rate debt. Any amounts paid to the counterparty to cover collateral obligations under the terms of the interest rate swap agreement are included in collateral on derivatives and collateral payable on derivatives on the Company's Consolidated Statements of Assets and Liabilities. Please see "*Item 1. Consolidated Financial Statements - Notes to Consolidated Financial Statements - Note 6. Debt and Note 7. Derivatives*" for additional detail.

### **Deferred Financing Costs and Debt Issuance Costs**

The Company records costs related to issuance of revolving debt obligations as deferred financing costs. These costs are deferred and amortized using the straight-line method over the stated maturity life of the obligation. The Company records costs related to the issuance of term debt obligations as debt issuance costs. These costs are deferred and amortized using the effective interest method. These costs are presented as a reduction to the outstanding principal amount of the term debt obligations on the Consolidated Statements of Assets and Liabilities. In the event that we modify or extinguish our debt before maturity, the Company follows the guidance in ASC Topic 470-50, Modification and Extinguishments. For modifications to or exchanges of our revolving debt obligations, any unamortized deferred financing costs related to lenders who are not part of the new lending group are expensed. For extinguishments of our term debt obligations, any unamortized debt issuance costs are deducted from the carrying amount of the debt in determining the gain or loss from the extinguishment.

### **Income Taxes**

The Company has elected to be treated for U.S. federal income tax purposes as a RIC under the Code. So long as the Company maintains its status as a RIC, it will generally not be subject to corporate-level U.S. federal income taxes on any ordinary income or capital gains that it distributes at least annually as dividends to its stockholders. As a result, any tax liability related to income earned and distributed by the Company represents obligations of the Company's stockholders and will not be reflected in the Consolidated Financial Statements of the Company.

The Company intends to comply with the applicable provisions of the Code pertaining to RICs and to make distributions of taxable income sufficient to relieve it from substantially all U.S. federal income taxes. Accordingly, no provision for U.S. federal income taxes is required in the Consolidated Financial Statements. For U.S. federal income tax purposes, distributions made to stockholders are reported as ordinary income, capital gains, non-taxable return of capital, or a combination thereof. The tax character of distributions paid to stockholders through March 31, 2026 may include return of capital, however, the exact amount cannot be determined at this point. The final determination of the tax character of distributions will not be made until the Company files our tax return for the tax year ending December 31, 2026. The character of income and gains that the Company distributes is determined in accordance with U.S. federal income tax regulations that may differ from US GAAP. BCSF CFSH, LLC, BCSF CFS, LLC, and BCC Middle Market CLO 2019-1, LLC are disregarded entities for U.S. federal income tax purposes and are consolidated with the tax return of the Company.

The Company evaluates tax positions taken or expected to be taken in the course of preparing its Consolidated Financial Statements to determine whether the tax positions are "more-likely-than-not" to be sustained by the applicable tax authority. Tax positions not deemed to meet the "more-likely-than-not" threshold are reversed and recorded as a tax benefit or expense in the current year. All penalties and interest associated with income taxes, if any, are included in income tax expense. Conclusions regarding tax positions are subject to review and may be adjusted at a later date based on factors including, but not limited to, on-going analyses of tax laws, regulations and interpretations thereof. Management has analyzed the Company's tax positions, and has concluded that no liability for unrecognized tax benefits related to uncertain tax positions on returns to be filed by the Company for all open tax years should be recorded. The Company identifies its major tax jurisdiction as the United States, and the Company is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next 12 months. As of March 31, 2026, the tax years that remain subject to examination are from 2023 forward.

## Recent Accounting Pronouncements

The Company's management has evaluated recently issued accounting standards through May 11, 2026, the issuance date of the Consolidated Financial Statements, and noted that no recent accounting pronouncements will have a material impact on the Consolidated Financial Statements of the Company except for what is noted below:

In November 2024, the FASB issued ASU 2024-03, Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (“ASU 2024-03”), which requires disaggregated disclosure of certain costs and expenses, including purchases of inventory, employee compensation, depreciation, amortization and depletion, within relevant income statement captions. ASU 2025-11 is effective for interim reporting periods within annual reporting periods beginning after December 15, 2027. Early adoption is permitted. The Company is currently assessing the impact of this guidance; however, the Company does not expect a material impact on its consolidated financial statements.

### Unconsolidated Significant Subsidiary

The following unconsolidated subsidiaries are considered significant subsidiaries under SEC Regulation S-X Rule 10-01(b)(1) and Regulation S-X Rule 4-08(g) as of March 31, 2026. Accordingly, summarized, comparative financial information is presented below for the unconsolidated significant subsidiaries: the International Senior Loan Program, LLC (“ISLP”), Bain Capital Senior Loan Program, LLC (“SLP”), and Legacy Corporate Lending HoldCo, LLC (“Legacy Corporate Lending”).

### International Senior Loan Program, LLC

On February 9, 2021, the Company and Pantheon (“Pantheon”), a leading global alternative private markets manager, formed the International Senior Loan Program, LLC (“ISLP”), an unconsolidated joint venture. ISLP invests primarily in non-US first lien senior secured loans. ISLP was formed as a Delaware limited liability company. The Company and Pantheon committed to initially provide \$138.3 million of debt and \$46.1 million of equity capital, to ISLP. Equity contributions will be called from each member on a

pro-rata basis, based on their equity commitments. Pursuant to the terms of the transaction, Pantheon invested \$50.0 million to acquire a 29.5% stake in ISLP. The Company contributed debt investments of \$317.1 million for a 70.5% stake in ISLP, and received a one-time gross distribution of \$190.2 million in cash in consideration of contributing such investments. On December 14, 2023, the Company

and Pantheon entered into the second amendment to the amended and restated limited liability company agreement which, among other things, increased capital commitments and changed the proportionate share ownership. The Company and Pantheon agreed to contribute an additional \$5.0 million and \$45.3 million, respectively, which resulted in new ownership stakes of 64.0% and 36.0%, respectively. As of March 31, 2026, the Company's investment in ISLP consisted of subordinated notes of \$190.7 million and equity interests of \$31.6 million. As of December 31, 2025, the Company's investment in ISLP consisted of subordinated notes of \$190.7 million and equity interests of \$43.6 million.

As of March 31, 2026, the Company had commitments with respect to its equity and subordinated note interests of ISLP in the aggregate amount of \$254.3 million. The Company had contributed \$254.3 million in capital and has \$0.0 million in unfunded capital contributions. As of March 31, 2026, Pantheon had commitments with respect to its equity and subordinated note interests of ISLP in the aggregate amount of \$149.2 million. Pantheon had contributed \$149.2 million in capital and has \$0.0 million in unfunded capital contributions.

As of December 31, 2025, the Company had commitments with respect to its equity and subordinated note interests of ISLP in the aggregate amount of \$254.3 million. The Company had contributed \$254.3 million in capital and had \$0.0 million in unfunded capital contributions. As of December 31, 2025, Pantheon had commitments with respect to its equity and subordinated note interests of ISLP in the aggregate amount of \$149.2 million. Pantheon had contributed \$149.2 million in capital and had \$0.0 million in unfunded capital contributions.

In future periods, the Company may sell certain of its investments or a participating interest in certain of its investments to ISLP. Since inception, the Company has sold \$1,192.7 million of its investments to ISLP. The sale of the investments met the criteria set forth in ASC 860, Transfers and Servicing for treatment as a sale.

The Company has determined that ISLP is an investment company under ASC 946; however, in accordance with such guidance, the Company will generally not consolidate its investment in a company other than a wholly or substantially owned investment company subsidiary, which is an extension of the operations of the Company, or a controlled operating company whose business consists of providing services to the Company. The Company does not consolidate its investments in ISLP as it is not a substantially wholly owned investment company subsidiary. In addition, the Company does not control ISLP due to the allocation of voting rights among ISLP members. The Company measures the fair value of ISLP in accordance with ASC 820, using the net asset value (or its equivalent) as a practical expedient. The Company and Pantheon each appointed two members to ISLP's four-person Member Designees' Committee. All material decisions with respect to ISLP, including those involving its investment portfolio, require unanimous approval of a quorum of Member Designees' Committee.

As of March 31, 2026, ISLP had \$711.9 million in debt and equity investments, at fair value. As of December 31, 2025, ISLP had \$733.1 million in debt and equity investments, at fair value.

Additionally, on February 9, 2021, ISLP, through a wholly-owned subsidiary, entered into a \$300.0 million senior secured revolving credit facility which bears interest at LIBOR (or an alternative risk-free interest rate index) plus 225 basis points with JP Morgan (the "ISLP Credit Facility Tranche A").

On February 4, 2022, ISLP entered into the second amended and restated credit agreement, which among other things formed an additional tranche ("ISLP Credit Facility Tranche B" and collectively with ISLP Credit Facility Tranche A, the "ISLP Credit Facilities") with an initial financing limit of \$50.0 million on May 31, 2022, and \$200.0 million on August 31, 2022, bringing the total facility size to \$500.0 million.

On June 30, 2023, ISLP entered into the third amendment and restated credit agreement, which among other things, replaced LIBOR with Term SOFR and consolidated Tranche A and Tranche B, with a size of \$500.0 million.

On September 11, 2023, ISLP entered into the fourth amended and restated credit agreement, which among other things, extended the maturity to February 9, 2027, modified concentration limitations and changed the interest rate to SOFR (or an alternative risk-free interest rate index) plus 246 basis points.

On June 24, 2025, the ISLP Credit Facility Tranche A and ISLP Credit Facility Tranche B were terminated.

On June 24, 2025, ISLP, through a wholly-owned subsidiary, entered into a €375.0 million senior secured revolving credit facility which bears interest at SOFR (or an alternative risk-free interest rate index) plus 195 basis points with Deutsche Bank (the

“ISLP Credit Facility”). The maturity date of the ISLP Credit Facility is June 24, 2030.

As of March 31, 2026, the ISLP Credit Facility had \$372.5 million of outstanding debt under the credit facility. As of December 31, 2025 the ISLP Credit Facility had \$381.4 million of outstanding debt under the credit facility. ### Bain Capital Senior Loan Program, LLC

On February 9, 2022, the Company, and an entity advised by Amberstone Co., Ltd. (“Amberstone”), a credit focused investment manager that advises institutional investors, committed capital to a newly formed joint venture, Bain Capital Senior Loan Program, LLC (“SLP”). Pursuant to an amended and restated limited liability company agreement (the “LLC Agreement”) between the Company and Amberstone, each such party has a 50% economic ownership interest in SLP. Amberstone’s initial capital commitments to SLP were \$179.0 million, with each party expected to maintain their pro rata proportionate share for each capital contribution. SLP will seek to invest primarily in senior secured first lien loans of U.S. borrowers. Through these capital contributions, SLP acquired 70% of the membership equity interests of the Company’s 2018-1 portfolio (“2018-1”). The Company retained 30% of the 2018-1 membership equity interests as a non-controlling equity interest. As of March 31, 2026, the Company’s investment in SLP consisted of subordinated notes of \$166.9 million, preferred equity interests of \$1.8 million and equity interests of \$3.6 million. As of December 31, 2025, the Company’s investment in SLP consisted of subordinated notes of \$157.9 million, preferred equity interests of \$1.8 million and equity interests of \$5.0 million.

In future periods, the Company may sell certain of its investments or a participating interest in certain of its investments to SLP. The Company may also purchase certain investments or a participating interest in certain investments from SLP. Since inception, the Company has sold \$2,486.1 million of its investments to SLP and purchased \$102.5 million in investments from SLP. The purchase and sale of the investments met the criteria set forth in ASC 860, Transfers and Servicing for treatment as a purchase and sale.

The Company has determined that SLP is an investment company under ASC 946; however, in accordance with such guidance, the Company will generally not consolidate its investment in a company other than a wholly or substantially owned investment company subsidiary, which is an extension of the operations of the Company, or a controlled operating company whose business consists of providing services to the Company. The Company does not consolidate its investments in SLP as it is not a substantially wholly owned investment company subsidiary. In addition, the Company does not control SLP due to the allocation of voting rights among SLP members. The Company measures the fair value of SLP in accordance with ASC 820, using the net asset value (or its equivalent) as a practical expedient. The Company and Amberstone each appointed two members to SLP’s four-person

Member Designees' Committee. All material decisions with respect to SLP, including those involving its investment portfolio, require unanimous approval of a quorum of Member Designees' Committee.

On March 7, 2022, SLP acquired 70% of the Company’s membership interests (the “2018-1 Membership Interests”) in BCC Middle Market CLO 2018-1 LLC (the “2018-1 Issuer”). The Company received \$56.1 million in proceeds resulting in a realized gain of \$1.2 million, which is included in net realized gain in non-controlled/non-affiliate investments. The sale of the investments met the criteria set forth in ASC 860, Transfers and Servicing for treatment as a sale. Through this acquisition, the 2018-1 Issuer became a consolidated subsidiary of SLP and was deconsolidated from the Company’s Consolidated Financial Statements. The Company retained the remaining 30% of the 2018-1 Membership Interests as a non-controlling equity interest.

On June 15, 2023, the 2018-1 Issuer entered into a First Supplemental Indenture (“2018-1 Supplemental Indenture”), dated as of June 15, 2023, pursuant to Section 8.1(xxxi) of the Indenture, dated as of September 28, 2018, between BCC Middle Market CLO 2018-1, LLC, as issuer, and Wells Fargo Bank, National Association, as trustee. The 2018-1 Supplemental Indenture provides for, among other things, an adoption of an alternate reference rate of Term SOFR plus 0.26%, effective July 1, 2023.

On March 13, 2024, SLP refinanced the 2018-1 Issuer through a private placement of \$500 million of senior secured and senior deferrable notes consisting of (i) \$290.0 million of Class A-1-R Senior Secured Floating Rate Notes, which currently bear interest at the applicable reference rate plus 2.25% per annum; (ii) \$20.0 million of Class A-J-R Senior Secured Floating Rate Notes, which bear interest at the applicable reference rate plus 2.70% per annum; (iii) \$30.0 million of Class A-2-R Senior Secured Floating Rate Notes, which bear interest at the applicable reference rate plus 2.90% per annum; (iv) \$40.0 million of Class B-R Mezzanine Secured Deferrable Floating Rate Notes, which bear interest at the applicable reference rate plus 3.90% per annum; (v) \$30.0 million of Class C-R Mezzanine Secured Deferrable Floating Rate Notes, which bear interest at the applicable reference rate plus 5.90% per annum; and (vi) \$30.0 million of Class D-R Junior Secured Deferrable Floating Rate Notes, which bear interest at the applicable reference rate plus 8.32% per annum (collectively, the “2018-1 CLO Reset Notes”). The 2018-1 CLO Reset Notes are scheduled to mature on April 20, 2036. The transaction resulted in a realized loss on the extinguishment of debt of \$1.3 million from the acceleration of unamortized debt issuance costs. The obligations of the 2018-1 Issuer under the 2018-1 CLO Transaction are non-recourse to the Company.

As part of the refinancing transaction, SLP bought the Company’s membership interests of the 2018-1 Issuer for \$22.4 million, making SLP the sole owner of the 2018-1 Membership Interests. SLP holds \$60.0 million in 2018-1 Membership Interests of the 2018-1 Issuer, and the 2018-1 Membership Interests are eliminated in consolidation on SLP’s Consolidated Financial Statements.

### Significant Unobservable Inputs

ASC 820 requires disclosure of quantitative information about the significant unobservable inputs used in the valuation of assets and liabilities classified as Level 3 within the fair value hierarchy. Disclosure of this information is not required in circumstances where a valuation (unadjusted) is obtained from a third-party pricing service and the information regarding the unobservable inputs is not reasonably available to the Company and as such, the disclosures provided below exclude those investments valued in that manner.

The valuation techniques and significant unobservable inputs used in Level 3 fair value measurements of assets as of March 31, 2026 were as follows:

	As of March 31, 2026				
	Fair Value of Level 3 Assets	Valuation Technique	Significant Unobservable Inputs	Range of Significant Unobservable Inputs	Weighted Average

(1) Included within the Level 3 assets of \$2,419,034 is an amount of \$77,148 for which the Advisor did not develop the unobservable inputs for the determination of fair value (examples include single source quotation and prior or pending transactions such as investments originated in the quarter or imminent payoffs).

(2) Weighted average is calculated by weighing the significant unobservable input by the relative fair value of each investment in the category.

(3) The range for an asset category consisting of a single investment, if any, is not meaningful and therefore has been excluded.

The Company used the income approach and market approach to determine the fair value of certain Level 3 assets as of March 31, 2026. The significant unobservable inputs used in the income approach are the comparative yield and discount rate. The comparative yield and discount rate are used to discount the estimated future cash flows expected to be received from the underlying investment. An increase/decrease in the comparative yield or discount rate would result in a decrease/increase, respectively, in the fair value. The significant unobservable inputs used in the market approach are the comparable company multiple and the recovery rate. The comparable company multiple is used to estimate the enterprise value of the underlying investment. An increase/decrease in the multiple would result in an increase/decrease, respectively, in the fair value. The recovery rate represents the extent to which proceeds can be recovered. An increase/decrease in the recovery rate would result in an increase/decrease, respectively, in the fair value.

## Debt Not Carried at Fair Value

Fair value is estimated by using market quotations or discounting remaining payments using applicable current market rates, which take into account changes in the Company's marketplace credit ratings, or market quotes, if available. If the Company's debt obligations were carried at fair value, the fair value and level would have been as follows:

	Level	As of	
		March 31, 2026	December 31, 2025
2019-1 Debt	2	\$ 270,957	\$ 272,182

## Note 5. Related Party Transactions

### Investment Advisory Agreement

The Company entered into the first amended and restated investment advisory agreement as of November 14, 2018 (the "Prior Advisory Agreement") with the Advisor, pursuant to which the Advisor manages the Company's investment program and related activities. On November 28, 2018, the Board, including a majority of the Independent Directors, approved a second amended and restated advisory agreement (the "Amended Advisory Agreement") between the Company and the Advisor. On February 1, 2019, stockholders approved the Amended Advisory Agreement which replaced the Prior Advisory Agreement.

### Base Management Fee

The Company pays the Advisor a base management fee (the "Base Management Fee"), accrued and payable quarterly in arrears. The Base Management Fee is calculated at an annual rate of 1.5% (0.375% per quarter) of the average value of the Company's gross assets (excluding cash and cash equivalents, but including assets purchased with borrowed amounts) at the end of each of the two most recently completed calendar quarters. Such amount shall be appropriately adjusted (based on the actual number of days elapsed relative to the total number of days in such calendar quarter) for any share issuance or repurchases by the Company during a calendar quarter. The Base Management Fee for any partial quarter will be appropriately prorated. Effective February 1, 2019, the Base Management Fee has been revised to a tiered management fee structure so that the Base Management Fee of 1.5% (0.375% per quarter) of the average value of the Company's gross assets (excluding cash and cash equivalents, but including assets purchased with borrowed amounts) will continue to apply to assets held at an asset coverage ratio down to 200%, but a lower Base Management Fee of 1.0% (0.25% per quarter) of the average value of the Company's gross assets (excluding cash and cash equivalents, but including assets purchased with borrowed amounts) will apply to any amount of assets attributable to leverage decreasing the Company's asset coverage ratio below 200%.

For the three months ended March 31, 2026 and 2025, management fees were \$9.1 million and \$9.1 million, respectively.

As of March 31, 2026 and December 31, 2025, \$9.1 million and \$9.4 million, respectively, remained payable related to the Base Management Fee accrued in base management fee payable on the Consolidated Statements of Assets and Liabilities.

### Incentive Fee

The incentive fee consists of two parts that are determined independently of each other such that one component may be payable even if the other is not.

The first part, the Incentive Fee based on income is calculated and payable quarterly in arrears as detailed below.

The second part, the capital gains incentive fee, is determined and payable in arrears as detailed below.

## **Incentive Fee on Pre-Incentive Fee Net Investment Income**

Pre-incentive fee net investment income means interest income, dividend income and any other income (including any other fees such as commitment, origination, structuring, diligence and consulting fees or other fees that the Company receives from portfolio companies but excluding fees for providing managerial assistance) accrued during the calendar quarter, minus operating expenses for the quarter (including the Base Management Fee, any expenses payable under the Administration Agreement, and any interest expense and dividends paid on any outstanding preferred stock, but excluding the incentive fee). Pre-incentive fee net investment income includes, in the case of investments with a deferred interest feature such as market discount, original issue discount (“OID”), debt instruments with PIK interest, preferred stock with PIK dividends and zero-coupon securities, accrued income that the Company has not yet received in cash.

Pre-incentive fee net investment income does not include any realized or unrealized capital gains or losses or unrealized capital appreciation or depreciation. Because of the structure of the incentive fee, it is possible that the Company may pay an incentive fee in a quarter where the Company incurs a loss. For example, if the Company receives pre-incentive fee net investment income in excess of the Hurdle rate for a quarter, the Company will pay the applicable incentive fee even if the Company has incurred a loss in that quarter due to realized and unrealized capital losses.

The incentive fee based on income is calculated and payable quarterly in arrears based on the aggregate pre-incentive fee net investment income in respect of the current calendar quarter and the eleven preceding calendar quarters (the “Trailing Twelve Quarters”). This calculation is referred to as the “Three-Year Lookback.”

Pre-incentive fee net investment income in respect of the relevant Trailing Twelve Quarters is compared to a “Hurdle Amount” equal to the product of (i) the hurdle rate of 1.5% per quarter (6% annualized) and (ii) the sum of our net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period) at the beginning of each applicable calendar quarter comprising the relevant Trailing Twelve Quarters. The Hurdle Amount will be calculated after making appropriate adjustments to our NAV at the beginning of each applicable calendar quarter for our subscriptions (which shall include all issuances by us of shares of our common stock, including issuances pursuant to the Company’s dividend reinvestment plan) and distributions during the applicable calendar quarter.

The quarterly incentive fee based on income is calculated, subject to the Incentive Fee Cap (as defined below), based on the amount by which (A) aggregate pre-incentive fee net investment income in respect of the relevant Trailing Twelve Quarters exceeds (B) the Hurdle Amount for such Trailing Twelve Quarters. The amount of the excess of (A) over (B) described in this paragraph for such Trailing Twelve Quarters is referred to as the “Excess Income Amount.” The incentive fee based on income that is paid to the Advisor in respect of a particular calendar quarter will equal the Excess Income Amount less the aggregate incentive fees based on income that were paid to the Advisor in the preceding eleven calendar quarters (or portion thereof) comprising the relevant Trailing Twelve Quarters.

The incentive fee based on income for each calendar quarter is determined as follows:

- (i) No incentive fee based on income is payable to the Advisor for any calendar quarter for which there is no Excess Income Amount;
- (ii) 100% of the aggregate pre-incentive fee net investment income in respect of the Trailing Twelve Quarters with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the Hurdle Amount, but is less than or equal to an amount, which the Company refers to as the “Catch-up Amount,” determined as the sum of 1.8182% multiplied by our NAV at the beginning of each applicable calendar quarter comprising the relevant Trailing Twelve Quarters; and
- (iii) 17.5% of the aggregate pre-incentive fee net investment income in respect of the Trailing Twelve Quarters that exceeds the Catch-up Amount.

### *Incentive Fee Cap*

The incentive fee based on income is subject to a cap (the “Incentive Fee Cap”). The Incentive Fee Cap in respect of any calendar quarter is an amount equal to 17.5% of the Cumulative Net Return (as defined below) during the relevant Trailing Twelve

Quarters less the aggregate incentive fees based on income that were paid to the Advisor in the preceding eleven calendar quarters (or portion thereof) comprising the relevant Trailing Twelve Quarters.

“Cumulative Net Return” during the relevant Trailing Twelve Quarters means (x) the pre-incentive fee net investment income in respect of the relevant Trailing Twelve Quarters less (y) any Net Capital Loss, if any, in respect of the relevant Trailing Twelve

Quarters. If, in any quarter, the Incentive Fee Cap is zero or a negative value, the Company will pay no incentive fee based on income to the Advisor in respect of that quarter. If, in any quarter, the Incentive Fee Cap for such quarter is a positive value but is less than the incentive fee based on income that is payable to the Advisor for such quarter calculated as described above, the Company will pay an incentive fee based on income to the Advisor equal to the Incentive Fee Cap in respect of such quarter. If, in any quarter, the Incentive Fee Cap for such quarter is equal to or greater than the incentive fee based on income that is payable to the Advisor for such quarter calculated as described above, the Company will pay an incentive fee based on income to the Advisor equal to the incentive fee calculated as described above for such quarter without regard to the Incentive Fee Cap.

“Net Capital Loss” in respect of a particular period means the difference, if positive, between (i) aggregate capital losses, whether realized or unrealized, in respect of such period and (ii) aggregate capital gains, whether realized or unrealized, in respect of such period.

For the three months ended March 31, 2026 and 2025, the Company incurred \$5.6 million and \$2.2 million, respectively, of income incentive fees (before waivers), which are included in incentive fees on the Consolidated Statements of Operations.

As of March 31, 2026 and December 31, 2025, there was \$5.6 million and \$5.9 million, respectively, related to the income incentive fee accrued in incentive fee payable on the Consolidated Statements of Assets and Liabilities.

The Amended Advisory Agreement approved by Stockholders on February 1, 2019 incorporates (i) a three-year lookback provision and (ii) a cap on quarterly income incentive fee payments based on net realized or unrealized capital loss, if any, during the applicable three-year lookback period.

### **Annual Incentive Fee Based on Capital Gains**

The second part of the incentive fee is a capital gains incentive fee that will be determined and payable in arrears in cash as of the end of each fiscal year (or upon termination of the Amended Advisory Agreement, as of the termination date), and equals to 17.5% of our realized capital gains as of the end of the fiscal year. In determining the capital gains incentive fee payable to the Advisor, the Company calculates the cumulative aggregate realized capital gains and cumulative aggregate realized capital losses since our inception, and the aggregate unrealized capital depreciation as of the date of the calculation, as applicable, with respect to each of the investments in our portfolio. For this purpose, cumulative aggregate realized capital gains, if any, equals the sum of the differences between the net sales price of each investment, when sold, and the cost of such investment. Cumulative aggregate realized capital losses equals the sum of the amounts by which the net sales price of each investment, when sold, is less than the cost of such investment. Aggregate unrealized capital depreciation equals the sum of the difference, if negative, between the valuation of each investment as of the applicable calculation date and the cost of such investment. At the end of the applicable year, the amount of capital gains that serves as the basis for our calculation of the capital gains incentive fee equals the cumulative aggregate realized capital gains less cumulative aggregate realized capital losses, less aggregate unrealized capital depreciation, with respect to our portfolio of investments. If this number is positive at the end of such year, then the capital gains incentive fee for such year will equal to 17.5% of such amount, less the aggregate amount of any capital gains incentive fees paid in respect of our portfolio in all prior years.

There were no capital gains incentive fee payable to the Advisor under the Amended Advisory Agreement as of March 31, 2026 and December 31, 2025.

US GAAP requires that the incentive fee accrual consider the cumulative aggregate unrealized capital appreciation of investments or other financial instruments in the calculation, as an incentive fee would be payable if such unrealized capital appreciation were realized, even though such unrealized capital appreciation is not permitted to be considered in calculating the fee actually payable under the Amended Advisory Agreement (“GAAP Incentive Fee”). There can be no assurance that such unrealized appreciation will be realized in the future. Accordingly, such fee, as calculated and accrued, would not necessarily be payable under the Amended Advisory Agreement, and may never be paid based upon the computation of incentive fees in subsequent period.

For the three months ended March 31, 2026 and 2025, the Company accrued \$0.0 million and \$0.0 million, respectively, of incentive fees related to the GAAP Incentive Fee, which is included in incentive fees on the Consolidated Statements of Operations. As of March 31, 2026 and December 31, 2025, there was \$0.0 million and \$0.0 million related to the GAAP Incentive Fee accrued in incentive fee payable on the Consolidated Statements of Assets and Liabilities, respectively.

### **Administration Agreement**

The Company has entered into an administration agreement (the “Administration Agreement”) with the advisor, pursuant to which the Administrator will provide the administrative services necessary for us to operate, and the Company will utilize the Administrator’s office facilities, equipment and recordkeeping services. Pursuant to the Administration Agreement, the Administrator

has agreed to oversee our public reporting requirements and tax reporting and monitor our expenses and the performance of professional services rendered to us by others. The Administrator has also hired a sub-administrator to assist in the provision of administrative services. The Company will reimburse the Administrator for its costs and expenses and our allocable portion of overhead incurred by it in performing its obligations under the Administration Agreement, including certain compensation paid to or compensatory distributions received by our officers (including our Chief Compliance Officer and Chief Financial Officer) and any of their respective staff who provide services to us, operations staff who provide services to us, and internal audit staff, if any, to the extent internal audit performs a role in our Sarbanes-Oxley internal control assessment. Our allocable portion of overhead will be determined by the Administrator, which expects to use various methodologies such as allocation based on the percentage of time certain individuals devote, on an estimated basis, to the business and affairs of the Company, and will be subject to oversight by the Board.

The Company incurred expenses related to the Administrator of \$0.6 million and \$0.7 million for the three months ended March 31, 2026 and 2025, respectively, which is included in other general and administrative expenses on the Consolidated Statements of Operations. As of March 31, 2026 and December 31, 2025, respectively, there were \$0.6 million and \$0.6 million related to the Administrator that were payable and included in “accounts payable and accrued expenses” in the Consolidated Statements of Assets and Liabilities. The sub-administrator is paid its compensation for performing its sub-administrative services under the sub-administration agreement. The Company incurred expenses related to the sub-administrator of \$0.2 million and \$0.2 million for the three months ended March 31, 2026 and 2025, respectively, which is included in other general and administrative expenses on the Consolidated Statements of Operations. The Administrator will not seek reimbursement in the event that any such reimbursements would cause any distributions to our stockholders to constitute a return of capital. In addition, the Administrator is permitted to delegate its duties under the Administration Agreement to affiliates or third parties and the Company will reimburse the expenses of these parties incurred and paid by the Advisor on our behalf.

### **Resource Sharing Agreement**

The Company’s investment activities are managed by the Advisor, an investment adviser that is registered with the SEC under the Advisers Act. The Advisor is responsible for originating prospective investments, conducting research and due diligence investigations on potential investments, analyzing investment opportunities, negotiating and structuring our investments and monitoring our investments and portfolio companies on an ongoing basis.

The Advisor has entered into a Resource Sharing Agreement (the “Resource Sharing Agreement”) with Bain Capital Credit, LP (“Bain Capital Credit”), pursuant to which Bain Capital Credit provides the Advisor with experienced investment professionals (including the members of the Advisor’s Credit Committee) and access to the resources of Bain Capital Credit so as to enable the Advisor to fulfill its obligations under the Amended Advisory Agreement. Through the Resource Sharing Agreement, the Advisor intends to capitalize on the significant deal origination, credit underwriting, due diligence, investment structuring, execution, portfolio management and monitoring experience of Bain Capital Credit’s investment professionals. There can be no assurance that Bain Capital Credit will perform its obligations under the Resource Sharing Agreement. The Resource Sharing Agreement may be terminated by either party on 60 days’ notice, which if terminated may have a material adverse consequence on the Company’s operations.

### **Co-Investments**

The Company will invest alongside its affiliates, subject to compliance with applicable regulations and our allocation procedures. Certain types of negotiated co-investments will be made only in accordance with the terms of the exemptive order the Company received from the SEC on December 23, 2025 (the “Order”). Under the terms of the Order, a majority of the Independent Directors must reach certain conclusions in connection with certain co-investment transactions (e.g., in the case of follow-on investments in an existing issuer in which affiliates, but not the Company, have an existing investment, and non-pro rata follow-on investments in, and dispositions of, securities of an existing issuer), including that: (i) the terms of the proposed transaction are reasonable and fair to the Company and its stockholders and do not involve overreaching in respect of the Company or its stockholders on the part of any person concerned; and (ii) the transaction is consistent with the interests of the Company’s stockholders and is consistent with the Company’s then-current investment objectives and strategies. In certain situations where co-investment with one or more funds managed by the Advisor or its affiliates is not covered by the Order, the personnel of the Advisor or its affiliates will need to decide which funds will proceed with the investment. Such personnel will make these determinations based on policies and procedures, which are designed to reasonably ensure that investment opportunities are allocated fairly and equitably among affiliated funds over time and in a manner that is consistent with applicable laws, rules and regulations.

### **Related Party Commitments**

An affiliate of the Advisor is the investment manager to certain pooled investment vehicles which are investors in the Company. These investors held 11,822,432.66 and 11,822,432.66 shares of the Company at March 31, 2026 and December 31, 2025, respectively.

## 2019-1 Debt

On August 28, 2019, the Company, through BCC Middle Market CLO 2019-1 LLC (the “2019-1 Issuer”), a Cayman Islands limited liability company and a wholly-owned and consolidated subsidiary of the Company, and BCC Middle Market CLO 2019-1 Co-Issuer, LLC (the “Co-Issuer” and, together with the 2019-1 Issuer, the “Co-Issuers”), a Delaware limited liability company, completed its \$501.0 million term debt securitization (the “2019-1 CLO Transaction”). The notes issued in connection with the 2019-1 CLO Transaction (the “2019-1 Notes”) are secured by a diversified portfolio of the Co-Issuers consisting primarily of middle market loans, the majority of which are senior secured loans (the “2019-1 Portfolio”). The Co-Issuers also issued Class A-1L Loans (the “Loans” and, together with the 2019-1 Notes, the “2019-1 Debt”). The Loans are also secured by the 2019-1 Portfolio. At the 2019-1 Portfolio closing date, the 2019-1 Portfolio was comprised of assets transferred from the Company and its consolidated subsidiaries. All transfers were eliminated in consolidation and there were no realized gains or losses recognized in the 2019-1 CLO Transaction.

On November 30, 2021, the Co-Issuers refinanced the 2019-1 CLO Transaction through a private placement of \$410 million of senior secured and senior deferrable notes consisting of: (i) \$282.5 million of Class A-1-R Senior Secured Floating Rate Notes, which currently bear interest at the applicable reference rate plus 1.50% per annum; (ii) \$55 million of Class A-2-R Senior Secured Floating Rate Notes, which bear interest at the applicable reference rate plus 2.00% per annum; (iii) \$47.5 million of Class B-R Senior Deferrable Floating Rate Notes, which bear interest at the applicable reference rate plus 2.60% per annum; and (iv) \$25.0 million of Class C-R Senior Deferrable Floating Rate Notes, which bear interest at the applicable reference rate plus 3.75% per annum (collectively, the “2019-1 CLO Reset Notes”). As part of the transactions, the 2019-1 Issuer was redomiciled from Cayman to Jersey. The 2019-1 CLO Reset Notes are scheduled to mature on October 15, 2033 and the reinvestment period ends October 15, 2025. The Company retained \$32.5 million of the Class B-R Notes and \$25.0 million of the Class C-R Notes. The retained notes by the Company are eliminated in consolidation. The transaction resulted in a realized loss on the extinguishment of debt of \$2.3 million from the acceleration of unamortized debt issuance costs. The obligations of the 2019-1 Issuer under the 2019-1 CLO Transaction are non-recourse to the Company.

On June 15, 2023, the Company entered into a Second Supplemental Indenture (“2019-1 Supplemental Indenture”), dated as of June 15, 2023, pursuant to Section 8.1(xxxi) of the Indenture, dated as of November 30, 2021, between BCC Middle Market CLO 2019-1, LTD, as issuer, and Wells Fargo Bank, National Association, as trustee. The 2019-1 Supplemental Indenture provides for, among other things, an adoption of an alternate reference rate of Term SOFR plus 0.26%, effective July 1, 2023.

On July 2, 2025, the Co-Issuers refinanced the 2019-1 CLO Reset Notes through a \$430.3 million term debt securitization in the form of a collateralized loan obligation (the “CLO Reset Transaction”). The CLO Reset Transaction was executed through the issuance by the Co-Issuers of the following classes of notes pursuant to that certain second amended and restated indenture: (i) \$232.0 million of Class A-1-RR Senior Secured Floating Rate Notes, which bear interest at the three-month SOFR plus 1.45%; (ii) \$16.0 million of Class A-2-RR Senior Secured Floating Rate Notes, which bear interest at the three-month SOFR plus 1.60%; (iii) \$24.0 million of Class A-3-RR Senior Secured Floating Rate Notes, which bear interest at the three-month SOFR plus 1.85%; (iv) \$32.0 million of Class B-RR Secured Deferrable Floating Rate Notes, which bear interest at the three-month SOFR plus 2.35%; and (v) \$24.0 million of Class C-RR Secured Deferrable Floating Rate Notes, which bear interest at the three-month SOFR plus 3.35% (collectively, the “2019-1 CLO Replacement Notes”). The 2019-1 CLO Replacement Notes will mature on July 15, 2036 and the reinvestment period ends April 15, 2027. (1) Commitments are generally subject to borrowers meeting certain criteria such as compliance with covenants and certain operational metrics. These amounts may remain outstanding until the commitment period of an applicable loan expires, which may be shorter than its maturity.

(2) Unfunded commitments denominated in currencies other than U.S. dollars have been converted to U.S. dollars using the applicable foreign currency exchange rate as of December 31, 2025.

## Contingencies

In the normal course of business, the Company may enter into certain contracts that provide a variety of indemnities. The Company's maximum exposure under these indemnities is unknown as it would involve future claims that may be made against the Company. Currently, the Company is not aware of any such claims and no such claims are expected to occur. As such, the Company does not consider it necessary to record a liability in this regard.

<sup>(1)</sup> The per share data was derived by using the weighted average shares outstanding during the period.

<sup>(3)</sup> The per share data for distributions reflects the actual amount of distributions declared during the period.

<sup>(9)</sup> The sum of quarterly per share amounts presented in previously filed financial statements on Form 10-Q may not equal earnings per share. This is due to changes in the number of weighted average shares outstanding and the effects of rounding.

<sup>(10)</sup> Net increase in net assets resulting from operations per share in these financial highlights may be different from the net increase (decrease) in net assets per share on the Consolidated Statements of Operations due to changes in the number of weighted average

shares outstanding and the effects of rounding.

- (11) Total return based on market value is calculated as the change in market value per share during the period, assuming dividends and distributions, plus the declared distributions, divided by the beginning market price for the period. Total return does not include upfront sales load and has not been annualized.

<sup>(12)</sup> Ratio is annualized. Incentive fees and income tax expense, including excise tax, if any, included within the ratio are not annualized.

**Note 12. Subsequent Events**

The Company's management has evaluated the events and transactions that have occurred through May 11, 2026, the issuance date of the Consolidated Financial Statements, and noted no items requiring disclosure in this Form 10-Q or adjustment of the Consolidated Financial Statements.

### Overview

Bain Capital Specialty Finance, Inc. (the “Company”, “we”, “our” and “us”) is an externally managed specialty finance company focused on lending to middle market companies. We have elected to be regulated as a business development company (a “BDC”) under the Investment Company Act of 1940, as amended (together with the rules and regulations promulgated thereunder, the “1940 Act”). We are managed by the Advisor, a subsidiary of Bain Capital Credit, LP (“Bain Capital Credit”). Our Advisor is registered as an investment adviser with the SEC under the Investment Advisers Act of 1940, as amended (the “Advisers Act”). Our Advisor also provides the administrative services necessary for us to operate (in such capacity, our “Administrator”). Since we commenced operations on October 13, 2016 through March 31, 2026, we have invested approximately \$9,975.9 million in aggregate principal amount of debt and equity investments prior to any subsequent exits or repayments. We seek to generate current income and, to a lesser extent, capital appreciation through direct originations of secured debt, including first lien, first lien/last-out, unitranche and second lien debt, investments in strategic joint ventures, equity investments and, to a lesser extent, corporate bonds.

On November 19, 2018, we closed our initial public offering (the “IPO”) issuing 7,500,000 shares of our common stock at a public offering price of \$20.25 per share. Shares of common stock of the Company began trading on the New York Stock Exchange under the symbol “BCSF” on November 15, 2018.

Our primary focus is capitalizing on opportunities within Bain Capital Credit's Senior Direct Lending Strategy, as defined below, which seeks to provide risk-adjusted returns and current income to investors by investing primarily in middle-market direct lending opportunities across North America, Europe and Australia and also in other geographic markets. We use the term “middle market” to refer to companies with between \$10.0 million and \$150.0 million in annual earnings before interest, taxes, depreciation and amortization (“EBITDA”). However, we may, from time to time, invest in larger or smaller companies. We focus on senior investments with a first or second lien on collateral and strong structures and documentation intended to protect the lender (including “unitranche” loans, which are loans that combine both senior and mezzanine debt). We generally seek to retain effective voting control in respect of the loans or particular class of securities in which we invest through maintaining affirmative voting positions or negotiating consent rights that allow us to retain a blocking position. We may also invest in mezzanine debt and other junior securities, including common and preferred equity and in secondary purchases of assets or portfolios, on an opportunistic basis, but such investments are not the principal focus of our investment strategy. We may also invest, from time to time, in distressed debt, debtor-in-possession loans, structured products, structurally subordinate loans, investments with deferred interest features, zero-coupon securities and defaulted securities. Our debt investments may be fixed or floating interest rates, and our floating rate investments may utilize one or more reference rates, such as SOFR. Our investments are subject to a number of risks.

We generate revenues primarily through receipt of interest income from the investments we hold. In addition, we generate income from various loan origination and other fees, dividends on direct equity investments and capital gains on the sales of investments. The companies in which we invest use our capital for a variety of reasons, including to support organic growth, to fund changes of control, to fund acquisitions, to make capital investments and for refinancing and recapitalizations.

Leverage is utilized to help the Company meet its investment objective. Any such leverage, if incurred, is expected to increase the total capital available for investment by the Company. As a BDC, we may also invest up to 30% of our portfolio opportunistically in “non-qualifying” portfolio investments, such as investments in non-U.S. companies.

We may invest in debt securities which are either rated below investment grade or not rated by any rating agency but, if they were rated, would be rated below investment grade. Below investment grade securities, which are often referred to as “junk,” have predominantly speculative characteristics with respect to the issuer’s capacity to pay interest and repay principal. They may also be illiquid and difficult to value.

### Investments

Our level of investment activity may vary substantially from period to period depending on many factors, including the amount of debt and equity capital available to middle-market companies, the level of merger and acquisition activity for such companies, the

level of investment and capital expenditures of such companies, the general economic environment, the amount of capital we have available to us and the competitive environment for the type of investments we make.

As a BDC, we may not acquire any assets other than “qualifying assets” specified in the 1940 Act, unless, at the time the acquisition is made, at least 70% of our total assets are qualifying assets (with certain limited exceptions). Qualifying assets include investments in “eligible portfolio companies.” Pursuant to rules adopted by the SEC, “eligible portfolio companies” include certain companies that do not have any securities listed on a national securities exchange and public companies whose securities are listed on a national securities exchange but whose market capitalization is less than \$250 million.

As a BDC, we may also invest up to 30% of our portfolio opportunistically in “non-qualifying” portfolio investments, such as investments in non-U.S. companies.

### *Revenues*

We primarily generate revenue in the form of interest income on debt investments and distributions on equity investments and, to a lesser extent, capital gains, if any, on equity securities that we may acquire in portfolio companies. Some of our investments may provide for deferred interest payments or payment-in-kind (“PIK”) interest. The principal amount of the debt investments and any accrued but unpaid interest generally becomes due at the maturity date. In addition, we may generate revenue in the form of commitment, origination, structuring or diligence fees, fees for providing managerial assistance and consulting fees. Loan origination fees, original issue discount and market discount or premium are capitalized, and we accrete or amortize such amounts into or against income over the life of the loan. We record contractual prepayment premiums on loans and debt securities as interest income.

Our debt investment portfolio consists of primarily floating rate loans. As of March 31, 2026 and December 31, 2025, 92.6% and 92.2%, respectively, of our debt investments, based on fair value, bore interest at floating rates, which may be subject to interest rate floors. Variable-rate investments subject to a floor generally reset periodically to the applicable floor, only if the floor exceeds the index. Trends in base interest rates, such as SOFR, may affect our net investment income over the long term. In addition, our results may vary from period to period depending on the interest rates of new investments made during the period compared to investments that were sold or repaid during the period; these results reflect the characteristics of the particular portfolio companies that we invested in or exited during the period and not necessarily any trends in our business or macroeconomic trends.

Dividend income on preferred equity investments is recorded on an accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. Dividend income on common equity investments is recorded on the record date for private portfolio companies and on the ex-dividend date for publicly traded portfolio companies.

### *Expenses*

Our primary operating expenses include the payment of fees to our Advisor under the Amended Advisory Agreement, our allocable portion of overhead expenses under the administration agreement (the “Administration Agreement”) and other operating costs, including those described below. The Base Management Fee and Incentive Fee compensate our Advisor for its work in identifying, evaluating, negotiating, closing and monitoring our investments. We bear all other out-of-pocket costs and expenses of our operations and transactions, including:

- our operational and organizational costs;
- the costs of any public offerings of our common stock and other securities, including registration and listing fees;
- costs of calculating our net asset value (including the cost and expenses of any third-party valuation services);
- fees and expenses payable to third parties relating to evaluating, making and disposing of investments, including our Advisor’s or its affiliates’ travel expenses, research costs and out-of-pocket fees and expenses associated with performing due diligence and reviews of prospective investments, monitoring our investments and, if necessary, enforcing our rights;
- interest payable on debt and other borrowing costs, if any, incurred to finance our investments;
- costs of effecting sales and repurchases of our common stock and other securities;

- distributions on our common stock;

- transfer agent and custody fees and expenses;
- the allocated costs incurred by the Administrator in providing managerial assistance to those portfolio companies that request it;
- other expenses incurred by the Administrator or us in connection with administering our business, including payments made to third-party providers of goods or services;
- brokerage fees and commissions;
- federal and state registration fees;
- U.S. federal, state and local taxes;
- Independent Director fees and expenses;
- costs associated with our reporting and compliance obligations under the 1940 Act and applicable U.S. federal and state securities laws;
- costs of any reports, proxy statements or other notices to our stockholders, including printing costs;
- costs of holding stockholder meetings;
- our fidelity bond;
- directors' and officers' errors and omissions liability insurance, and any other insurance premiums;
- litigation, indemnification and other non-recurring or extraordinary expenses;
- direct costs and expenses of administration and operation, including printing, mailing, long distance telephone, staff, audit, compliance, tax and legal costs;
- fees and expenses associated with marketing efforts;
- dues, fees and charges of any trade association of which we are a member; and
- all other expenses reasonably incurred by us or the Administrator in connection with administering our business.

To the extent that expenses to be borne by us are paid by the Administrator, we will generally reimburse the Administrator for such expenses. To the extent the Administrator outsources any of its functions, the Company will pay the fees associated with such functions on a direct basis without profit to the Administrator. We will also reimburse the Administrator for its costs and expenses and our allocable portion of overhead incurred by it in performing its obligations under the Administration Agreement, including certain rent and compensation paid to or compensatory distributions received by our officers (including our Chief Compliance Officer and Chief Financial Officer) and any of their respective staff who provide services to us, operations staff who provide services to us, internal audit staff, if any, to the extent internal audit performs a role in our Sarbanes-Oxley internal control assessment and fees paid to third-party providers for goods or services. Our allocable portion of overhead will be determined by the Administrator, which expects to use various methodologies such as allocation based on the percentage of time certain individuals devote, on an estimated basis, to our business and affairs, and will be subject to oversight by our Board. We incurred expenses related to the Administrator of \$0.6 million and \$0.7 million for the three months ended March 31, 2026 and 2025, respectively, which is included in other general and administrative expenses on the Consolidated Statements of Operations. The sub-administrator is paid its compensation for performing its sub-administrative services under the sub-administration agreement. We incurred expenses related to the sub-administrator of \$0.2 million and \$0.2 million for the three months ended March 31, 2026 and 2025, respectively, which is included in other general and administrative expenses on the Consolidated Statements of Operations. The Administrator will not be reimbursed to the extent that such reimbursements would cause any distributions to our stockholders to constitute a return of capital. All of the foregoing expenses are ultimately borne by our stockholders.

## **Leverage**

We may borrow money from time to time. However, our ability to incur indebtedness (including by issuing preferred stock), is limited by applicable regulations such that our asset coverage, as defined in the 1940 Act, must equal at least 150%. In determining whether to borrow money, we will analyze the maturity, covenant package and rate structure of the proposed borrowings as well as the risks of such borrowings compared to our investment outlook. As of March 31, 2026, the Company's asset coverage was 174.6%.

## **Investment Decision Process**

The Advisor's investment process can be broken into five processes: (1) Sourcing and Idea Generation, (2) Investment Diligence & Recommendation, (3) Credit Committee Approval, (4) Portfolio Construction and (5) Portfolio & Risk Management.

### Sourcing and Idea Generation

The investment decision-making process begins with sourcing ideas. Bain Capital Credit's Private Credit Group interacts with a broad and deep set of global sourcing contacts, enabling the group to generate a large set of middle-market investment opportunities. Further enhancing the sourcing capability of the core Private Credit Group are Bain Capital Credit's industry groups, Trading Desk, and the Bain Capital Special Situations team. The team has extensive contacts with private equity firms. Relationships with banks, a variety of advisors and intermediaries and a handful of unique independent sponsors compose the remainder of the relationships. Through these sourcing efforts the Private Credit Group has built a sustainable deal funnel, which has generated hundreds of opportunities to review annually.

### Investment Diligence & Recommendation

Our Advisor utilizes Bain Capital Credit's bottom-up approach to investing, and it starts with the due diligence. The Private Credit Group works with the close support of Bain Capital Credit's industry groups on performing due diligence. This process typically begins with a detailed review of the offering memorandum as well as Bain Capital Credit's own independent diligence efforts, including in-house materials and expertise, third-party independent research and interviews, and hands-on field checks where appropriate. For deals that progress beyond an initial stage, the team will schedule one or more meetings with company management, facilities visits and also meetings with the sponsor in order to ask more detailed questions and to better understand the sponsor's view of the business and plans for it going forward. The team's diligence work is summarized in investment memorandums and accompanying credit packs. Work product also includes full models and covenant analysis. The approval process itself is iterative, involving multiple levels of discussion and approval.

### Credit Committee Approval

Given Bain Capital Credit's broad and diverse range of investment strategies, we tailor our investment decision-making process by strategy to provide a robust and comprehensive discussion of both individual investments and the applicable portfolio(s) under consideration. We believe that this flexible approach provides a rigorous investment decision-making process that allows us to be nimble across a variety of market environments while still maintaining high credit underwriting standards.

Our investments require approval from at least the Private Credit Investment Committee, which includes three Partners in the Private Credit Group as standing members: Michael Ewald, Mike Boyle, and Carolyn Hastings. Ad hoc members may also be included in the Private Credit Investment Committee for certain types of investments.

### Portfolio Construction

Portfolio construction is largely the responsibility of the portfolio managers. The portfolio managers will construct the portfolio using a set of approved investments. While the decision to buy generally requires approval from at least the Private Credit Investment Committee, the decision to sell securities is at the sole discretion of the portfolio managers. For middle-market holdings, the path to exit an investment is discussed at credit committee meetings, including restructurings, acquisitions and sale to strategic buyers. Since most middle-market investments are illiquid, exits are driven primarily by a sale of the portfolio company or a refinancing of the portfolio company's debt.

### Portfolio & Risk Management

Our Advisor utilizes Bain Capital Credit's Private Credit Group for the daily monitoring of its respective credits after an investment has been made. Our Advisor believes that the ongoing monitoring of financial performance and market developments of

portfolio investments is critical to successful investment management. Accordingly, our Advisor is actively involved in an on-going portfolio review process and attends board meetings. To the extent a portfolio investment is not meeting our Advisor's expectations, our Advisor takes corrective action when it deems appropriate, which may include raising interest rates, gaining a more influential role on its board, taking warrants and, where appropriate, restructuring the balance sheet to take control of the company. Our Advisor will utilize the Bain Capital Credit Risk and Oversight Committee. The Risk and Oversight Committee is responsible for monitoring and reviewing risk management, including portfolio risk, counterparty risk and firm-wide risk issues. In addition to the methods noted above, there are a number of proprietary methods and tools used through all levels of Bain Capital Credit to manage portfolio risk.

Loans or debt securities are placed on non-accrual status when there is reasonable doubt that principal or interest will be collected. Accrued interest generally is reversed when a loan or debt security is placed on non-accrual status. Interest payments received on non-accrual loans or debt securities may be recognized as income or applied to principal depending upon management's judgment. Non-accrual loans and debt securities are restored to accrual status when past due principal and interest is paid and, in management's judgment, are likely to remain current. We may make exceptions to this treatment if the loan has sufficient collateral value and is in the process of collection. As of March 31, 2026, there were eleven loans from six issuers placed on non-accrual in the Company's portfolio. As of December 31, 2025, there were twelve loans from six issuers placed on non-accrual in the Company's portfolio.

Our Advisor monitors our portfolio companies on an ongoing basis. It monitors the financial trends of each portfolio company to determine if they are meeting their respective business plans and to assess the appropriate course of action for each company. The Advisor has several methods of evaluating and monitoring the performance and fair value of our investments, which may include the following:

- assessment of success in adhering to the portfolio company's business plan and compliance with covenants;
- periodic or regular contact with portfolio company management and, if appropriate, the financial or strategic sponsor to discuss financial position, requirements and accomplishments;
- comparisons to our other portfolio companies in the industry, if any;
- attendance at and participation in board meetings or presentations by portfolio companies; and
- review of monthly and quarterly financial statements and financial projections of portfolio companies.

Our Advisor rates the investments in our portfolio at least quarterly and it is possible that the rating of a portfolio investment may be reduced or increased over time. For investments rated 3 or 4, our Advisor enhances its level of scrutiny over the monitoring of such portfolio company. Our internal performance ratings do not constitute any rating of investments by a nationally recognized statistical rating organization or represent or reflect any third-party assessment of any of our investments.

- An investment is rated 1 if, in the opinion of our Advisor, it is performing above underwriting expectations, and the business trends and risk factors are generally favorable, which may include the performance of the portfolio company or the likelihood of a potential exit.
- An investment is rated 2 if, in the opinion of our Advisor, it is performing as expected at the time of our underwriting and there are generally no concerns about the portfolio company's performance or ability to meet covenant requirements, interest payments or principal amortization, if applicable. All new investments or acquired investments in new portfolio companies are initially given a rating of 2.
- An investment is rated 3 if, in the opinion of our Advisor, the investment is performing below underwriting expectations and there may be concerns about the portfolio company's performance or trends in the industry, including as a result of

factors such as declining performance, non-compliance with debt covenants or delinquency in loan payments (but generally not more than 180 days past due).

- An investment is rated 4 if, in the opinion of our Advisor, the investment is performing materially below underwriting expectations. For debt investments, most of or all of the debt covenants are out of compliance and payments are substantially delinquent. Investments rated 4 are not anticipated to be repaid in full, if applicable, and there is significant risk that we may realize a substantial loss on our investment.

Interest and debt financing expense for the three months ended March 31, 2026 as compared to March 31, 2025 increased primarily due to an increase in debt outstanding for the period. The weighted average principal debt balance outstanding for the three months ended March 31, 2026 was \$1.6 billion compared to \$1.4 billion for the three months ended March 31, 2025.

The combined weighted average interest rate (excluding deferred upfront financing costs and unused fees) of the aggregate borrowings outstanding for the three months ended March 31, 2026 and the year ended December 31, 2025 was 4.6% and 4.8%, respectively.

See “*Item 1. Consolidated Financial Statements - Notes to Consolidated Financial Statements - Note 2. Summary of Significant Accounting Policies*” and “*Item 1. Consolidated Financial Statements - Notes to Consolidated Financial Statements - Note 7. Derivatives*” for additional disclosure regarding our accounting for derivative instruments designated in a hedge accounting relationship, and our consolidated schedule of investments for additional disclosure regarding these derivative instruments. ### ***Financial Condition, Liquidity and Capital Resources***

Our liquidity and capital resources are derived primarily from proceeds from equity issuances, advances from our credit facilities, 2019-1 Debt, October 2026 Notes, March 2030 Notes, March 2031 Notes, the Sumitomo Credit Facility and cash flows from operations. The primary uses of our cash are for (1) investments in portfolio companies and other investments and to comply with certain portfolio diversification requirements; (2) debt service, repayment, and other financing costs; (3) cash distributions to the holders of our common stock; and (4) the cost of operations (including payments to the Advisor under the Investment Advisory and Administration Agreements).

We intend to continue to generate cash primarily from cash flows from operations, future borrowings and future offerings of securities. We may from time to time raise additional equity or debt capital through registered offerings, enter into additional debt facilities, or increase the size of existing facilities or issue debt securities. Any such incurrence or issuance would be subject to prevailing market conditions, our liquidity requirements, contractual and regulatory restrictions and other factors. We are required to meet an asset coverage ratio, defined under the 1940 Act as the ratio of our total assets (less all liabilities and indebtedness not represented by senior securities) to our outstanding senior securities, of at least 150% after each issuance of senior securities. As of March 31, 2026 and December 31, 2025, our asset coverage ratio was 174.6% and 175.9%, respectively.

During the three months ended March 31, 2026, we provided \$26.6 million in cash for operating activities. The increase in cash provided by operating activities was primarily related to proceeds from principal payments and sales of investments of \$245.9 million and a net increase in assets resulting from operations of \$3.4 million, which was offset by purchases of investments of \$234.4 million. During the three months ended March 31, 2026, we used \$51.3 million for financing activities, primarily on repayments of \$649.0 million and distributions paid during the period of \$37.0 million, partially offset by the issuance of the March 2031 Notes for \$350.0 million, and borrowings under our Sumitomo Credit Facility of \$293.0 million.

For the three months ended March 31, 2025, cash, foreign cash, restricted cash, and cash equivalents decreased by \$5.1 million. During the three months ended March 31, 2025, we used \$7.3 million in cash for operating activities. The decrease in cash used for operating activities was primarily related to purchases of investments of \$299.4 million, which was offset by proceeds from principal payments and sales of investments of \$251.3 million and a net increase in assets resulting from operations of \$28.5 million. During the three months ended March 31, 2025, we provided \$2.0 million for financing activities, primarily on the issuance of the March 2030 Notes for \$350.0 million and borrowings under our Sumitomo Credit Facility of \$109.0 million, partially offset by repayments of \$395.7 million and distributions paid during the period of \$58.2 million.

### **Equity**

On November 19, 2018, we closed our IPO issuing 7,500,000 shares of common stock at a public offering price of \$20.25 per share. Shares of common stock of the Company began trading on the New York Stock Exchange under the symbol “BCSF” on November 15, 2018. The offering generated net proceeds, after expenses, of \$145.4 million. All outstanding capital commitments from the Company’s Private Offering were cancelled as of the completion of the IPO.

On May 7, 2019, the Company’s Board authorized the Company to repurchase up to \$50 million of its outstanding common stock in accordance with safe harbor rules under the Exchange Act. Any such repurchases will depend upon market conditions and there is no guarantee that the Company will repurchase any particular number of shares or any shares at all. As of March 31, 2026, there have been no repurchases of common stock.

On February 27, 2025, the Company entered into equity distribution agreements (each, an “Equity Distribution Agreement”), by and among the Company, the Advisor and, severally and not jointly, each of Raymond James & Associates, Inc. and Keefe, Bruyette & Woods, Inc. (the “Sales Agents”) in connection with the sale of shares of the Company’s common stock by the Company, par value \$0.001 per share of common stock, having an aggregate offering price of up to \$250.0 million, in amounts and at times to be determined by the Company (the “Offering”). Actual sales, if any, will depend on a variety of factors to be determined by the Company from time to time, including, among others, market conditions and the market price of the common stock.

Each Equity Distribution Agreement provides that the Company may offer and sell the common stock from time to time through the Sales Agents, or to them. Sales of the common stock, if any, may be made in negotiated transactions or transactions that are deemed to be “at the market,” as defined in Rule 415 under the Securities Act of 1933, as amended, including sales made directly on the New York Stock Exchange or any similar securities exchange or sales made to or through a market maker other than on a securities exchange, at prices related to the prevailing market prices or at negotiated prices. Pursuant to the terms of each Equity Distribution Agreement, each Sales Agent will receive a commission from the Company of up to 1.50% of the gross sales price of any common stock sold through the relevant Sales Agent under its Equity Distribution Agreement. Each Equity Distribution Agreement contains customary representations, warranties and agreements of the Company, indemnification rights and other obligations of the parties and termination provisions.

The Company may from time to time issue and sell common stock through public or “at the market” offerings. No common stock was issued and sold through public or “at the market” offerings during the three months ended March 31, 2026. Total distributions declared			\$ 0.42	\$ 27,245

The Company’s distributions are recorded on the record date. The following table summarizes distributions declared during the three months ended March 31, 2025 (dollars in thousands, except per share):

Date Declared	Record Date	Payment Date	Amount Per Share	Total Distributions
February 27, 2025	March 17, 2025	March 31, 2025	\$ 0.42	\$ 27,245

Total distributions declared			\$ 0.45	\$ 29,191

<sup>(1)</sup> Represents a special dividend.

Distributions to common stockholders are recorded on the record date. To the extent that we have income available, we intend to distribute quarterly distributions to our stockholders. Our quarterly distributions, if any, will be determined by the Board. Any distributions to our stockholders will be declared out of assets legally available for distribution.

We have elected to be treated, and intend to operate in a manner so as to continuously qualify, as a RIC under Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”), beginning with our taxable year ended December 31, 2016. To qualify for and maintain RIC tax treatment, among other things, we must distribute dividends to our stockholders in respect of each taxable year

of an amount generally at least equal to 90% of the sum of our net ordinary income and net short-term capital gains in excess of our net long-term capital losses. In order to avoid the imposition of certain excise taxes imposed on RICs, we must distribute dividends to our stockholders in respect of each calendar year of an amount at least equal to the sum of: (1) 98% of our net ordinary income (taking into account certain deferrals and elections) for such calendar year; (2) 98.2% of our capital gains in excess of capital losses, adjusted for certain ordinary losses, generally for the one-year period ending on October 31 of such calendar year; and (3) the sum of any net ordinary income plus capital gains net income for preceding years that were not distributed during such years and on which we paid no U.S. federal income tax.

We intend to distribute net capital gains (i.e., net long-term capital gains in excess of net short-term capital losses), if any, at least annually out of the assets legally available for such distributions. However, we may decide in the future to retain all or a portion of our net capital gains for investment, incur a corporate-level tax on such capital gains, and elect to treat such capital gains as deemed distributions to our stockholders.

We have adopted a dividend reinvestment plan that provides for the reinvestment of cash dividends and distributions. Prior to the IPO, stockholders who “opted in” to our dividend reinvestment plan had their cash dividends and distributions (net of applicable withholding tax) automatically reinvested in additional shares of our common stock, rather than receiving cash dividends and distributions. Subsequent to the IPO, stockholders who do not “opt out” of our dividend reinvestment plan will have their cash dividends and distributions (net of applicable withholding tax) automatically reinvested in additional shares of our common stock, rather than receiving cash dividends and distributions. Stockholders could elect to “opt in” or “opt out” of our dividend reinvestment plan in their subscription agreements, through the private offering. The elections of stockholders prior to the IPO shall remain effective after the IPO.

The U.S. federal income tax characterization of distributions declared and paid for the fiscal year will be determined at fiscal year-end based upon our investment company taxable income for the full fiscal year and distributions paid during the full year.

### ***Commitments and Off-Balance Sheet Arrangements***

We may become a party to financial instruments with off-balance sheet risk in the normal course of our business to fund investments and to meet the financial needs of our portfolio companies. These instruments may include commitments to extend credit and involve, to varying degrees, elements of liquidity and credit risk in excess of the amount recognized on the statements of assets and liabilities.

### ***Related Party Transactions***

We have entered into a number of business relationships with affiliated or related parties, including the Amended Advisory Agreement and the Administration Agreement.

In addition to the aforementioned agreements, we, our Advisor and Bain Capital Credit have been granted exemptive relief from the SEC to permit greater flexibility to negotiate the terms of co-investments if the Board determines that it would be advantageous for us to co-invest with other Bain Capital Credit Clients in a manner consistent with our investment objectives, positions, policies, strategies and restrictions as well as regulatory requirements and other pertinent Bain Capital Credit Clients funds, accounts and investment vehicles managed by Bain Capital Credit may afford us additional investment opportunities and an ability to achieve greater diversification. Accordingly, our exemptive order permits us to invest with Bain Capital Credit Clients in the same portfolio companies under circumstances in which such investments would otherwise not be permitted by the 1940 Act. Under the terms of the exemptive order, a majority of our Independent Directors must reach certain conclusions in connections with certain co-investment transactions (e.g., in the case of follow-on investments in an existing issuer in which affiliates, but not the Company, have an existing investment, and non-pro rata follow-on investments in, and dispositions of, securities of an existing issuer), including that (i) the terms of the proposed transaction are reasonable and fair to the Company and its stockholders and do not involve overreaching in respect of the Company or its stockholders on the part of any person concerned, and (ii) the transaction is consistent with the interests of the Company’s stockholders and is consistent with the Company’s then-current investment objectives and strategies. The exemptive relief imposes other conditions with which we must comply to engage in co-investment transactions.

### ***Recent Developments***

See “*Item 1. Consolidated Financial Statements — Notes to Consolidated Financial Statements — Note 12. Subsequent Events*” for a summary of recent developments.

## **Significant Accounting Estimates and Critical Accounting Policies**

### ***Basis of Presentation***

The Company's unaudited Consolidated Financial Statements have been prepared in accordance with generally accepted accounting principles in the United States of America ("US GAAP"). The Company's Consolidated Financial Statements and related financial information have been prepared pursuant to the requirements for reporting on Form 10-Q and Articles 1, 6, 10 and 12 of Regulation S-X. These Consolidated Financial Statements reflect adjustments that in the opinion of the Company are necessary for the fair statement of the financial position and results of operations for the periods presented herein and are not necessarily indicative of the full fiscal year. We have determined we meet the definition of an investment company and follow the accounting and reporting guidance in the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 946 — Financial Services — Investment Companies ("ASC 946"). Our financial currency is U.S. dollars and these Consolidated Financial Statements have been prepared in that currency.

### ***Use of Estimates***

The preparation of the Consolidated Financial Statements in conformity with US GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Consolidated Financial Statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates and such differences could be material.

### ***Revenue Recognition***

We record our investment transactions on a trade date basis. We record realized gains and losses based on the specific identification method. We record interest income, adjusted for amortization of premium and accretion of discount, on an accrual basis. Discount and premium to par value on investments acquired are accreted and amortized, respectively, into interest income over the life of the respective investment using the effective interest method. Loan origination fees, original issue discount and market discount or premium are capitalized and amortized into or against interest income using the effective interest method or straight-line method, as applicable. We record any prepayment premiums, unamortized upfront loan origination fees and unamortized discounts received upon prepayment of a loan or debt security as interest income.

Dividend income on preferred equity investments is recorded on an accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. Dividend income on common equity investments is recorded on the record date for such distributions in the case of private portfolio companies, and on the ex-dividend date for publicly traded portfolio companies. Distributions received from a limited liability company or limited partnership investment are evaluated to determine if the distribution should be recorded as dividend income or a return of capital.

Certain investments may have contractual PIK interest or dividends. PIK represents accrued interest or accumulated dividends that are added to the loan principal of the investment on the respective interest or dividend payment dates rather than being paid in cash and generally becomes due at maturity or upon being called by the issuer. We record PIK as interest or dividend income, as applicable. If at any point we believe PIK may not be realized, we place the investment generating PIK on non-accrual status.

Certain structuring fees and amendment fees are recorded as other income when earned. We record administrative agent fees received as other income when the services are rendered.

### ***Valuation of Portfolio Investments***

The Advisor shall value the investments owned by the Company, subject at all times to the oversight of the Board. The Advisor shall follow its own written valuation policies and procedures as approved by the Board when determining valuations. A short summary of the Advisor's valuation policies is below.

Investments for which market quotations are readily available are typically valued at such market quotations. Pursuant to Rule 2a-5 under the 1940 Act, the Board designates the Advisor as Valuation Designee to perform fair value determinations for the Company for investments that do not have readily available market quotations. Market quotations are obtained from an independent pricing service, where available. If a price cannot be obtained from an independent pricing service or if the independent pricing service is not deemed to be current with the market, certain investments held by the Company will be valued on the basis of prices provided by principal market makers. Generally, investments marked in this manner will be marked at the mean of the bid and ask of the independent broker quotes obtained. To validate market quotations, the Company utilizes a number of factors to determine if the quotations are representative of fair value, including the source and number of quotations. Debt and equity securities that are not publicly traded or whose market prices are not readily available will be valued at a price that reflects such security's fair value.

With respect to unquoted portfolio investments, the Company will value each investment considering, among other measures, discounted cash flow models, comparable company multiple models, comparisons of financial ratios of peer companies that are public, and other factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, the Company will use the pricing indicated by the external event to corroborate and/or assist us in our valuation. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may differ significantly from the values that would have been used had a readily available market value existed for such investments, and the differences could be material.

With respect to investments for which market quotations are not readily available, in particular, illiquid/hard to value assets, the Advisor will typically undertake a multi-step valuation process, which includes among other things, the below:

- The Company's quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals of the Advisor responsible for the portfolio investment; in conjunction with the Company's portfolio management and valuation team.
- Preliminary valuation conclusions are then documented and discussed with the Company's senior management and the Advisor;
- Generally, investments that constitute a material portion of the Company's portfolio are periodically reviewed by an independent valuation firm; and
- The Board and Audit Committee provide oversight with respect to the valuation process, including requesting such materials as they deem appropriate.

In following this approach, the types of factors that are taken into account in the fair value pricing of investments include, as relevant, but are not limited to: comparison to publicly traded securities, including factors such as yield, maturity and measures of credit quality; the enterprise value of a portfolio company; the nature and realizable value of any collateral; the portfolio company's ability to make payments and its earnings and discounted cash flows; and the markets in which the portfolio company does business. In cases where an independent valuation firm provides fair valuations for investments, the independent valuation firm provides a fair valuation report, a description of the methodology used to determine the fair value and their analysis and calculations to support their concluded ranges.

## **Contractual Obligations**

We have entered into the Amended Advisory Agreement with our Advisor (which supersedes the Prior Investment Advisory Agreement dated November 14, 2018 we had previously entered into). Our Advisor has agreed to serve as our investment adviser in accordance with the terms of the Amended Advisory Agreement. Under the Amended Advisory Agreement, we have agreed to pay an annual Base Management Fee as well as an incentive fee based on our investment performance.

On November 28, 2018, our Board, including a majority of our Independent Directors, approved the Amended Advisory Agreement. On February 1, 2019 the Company's stockholders approved the Amended Advisory Agreement. Pursuant to this Agreement, effective February 1, 2019, the Base Management Fee of 1.5% (0.375% per quarter) of the average value of the Company's gross assets (excluding cash and cash equivalents, but including assets purchased with borrowed amounts) will continue to apply to assets held at an asset coverage ratio of 200%, but a lower Base Management Fee of 1.0% (0.25% per quarter) of the average value of the Company's gross assets (excluding cash and cash equivalents, but including assets purchased with borrowed amounts) will apply to any amount of assets attributable to leverage decreasing the Company's asset coverage ratio below 200%. The Amended Advisory Agreement incorporates (i) a three-year lookback provision and (ii) a cap on quarterly income incentive fee payments based on net realized or unrealized capital loss, if any, during the applicable three-year lookback period.

We have entered into an Administration Agreement with the Administrator pursuant to which the Administrator will furnish us with administrative services necessary to conduct our day-to-day operations. We reimburse the Administrator for its costs and

expenses and our allocable portion of overhead incurred by it in performing its obligations under the Administration Agreement, including certain compensation paid to or compensatory distributions received by our officers (including our Chief Compliance Officer and Chief Financial Officer) and any of their respective staff who provide services to us, operations staff who provide services to us, and internal audit staff, if any, to the extent internal audit performs a role in our Sarbanes-Oxley internal control assessment.

If any of our contractual obligations discussed above are terminated, our costs may increase under any new agreements that we enter into as replacements. We would also likely incur expenses in locating alternative parties to provide the services we expect to receive under our Amended Advisory Agreement and Administration Agreement.

The following table shows the contractual maturities of our debt obligations as of March 31, 2026 (dollars in thousands):

	Payments Due by Period

### Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are subject to financial market risks, including changes in interest rates. We will generally invest in illiquid loans and securities including debt and equity securities of middle-market companies. Because we expect that there will not be a readily available market for many of the investments in our portfolio, we expect to value many of our portfolio investments at fair value as determined in good faith by the Board using a documented valuation policy and a consistently applied valuation process. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may differ significantly from the values that would have been used had a readily available market value existed for such investments, and the differences could be material. There have been no material quantitative changes in reported market risk exposures in comparison to the information reported in the prior period.

Assuming that the statement of financial condition as of March 31, 2026 were to remain constant and that we took no actions to alter our existing interest rate sensitivity, the following table shows the annualized impact of hypothetical base rate changes in interest rates (dollars in thousands). Net increase (decrease) in net investment income (as shown in the table below) includes the impact of incentive fees.

Change in Interest Rates	Increase (Decrease) in Interest Income	Increase (Decrease) in Interest Expense	Net Increase (Decrease) in Net Investment Income
Down 100 Basis Points	\$ (17,789)	\$ (11,670)	\$ (5,048)
Down 200 Basis Points	(35,371)	(23,340)	(9,926)
Down 300 Basis Points	(48,686)	(34,390)	(11,794)
Up 100 Basis Points	18,109	11,670	5,312
Up 200 Basis Points	36,219	23,340	10,625
Up 300 Basis Points	54,328	35,010	15,937

From time to time, we may make investments that are denominated in a foreign currency. These investments are translated into U.S. dollars at the balance sheet date, exposing us to movements in foreign exchange rates. We may employ hedging techniques to minimize these risks, but we cannot assure you that such strategies will be effective or without risk to us. We may seek to utilize instruments such as, but not limited to, forward contracts to seek to hedge against fluctuations in the relative values of our portfolio positions from changes in currency exchange rates.

## **Item 4. Controls and Procedures**

### ***Evaluation of Disclosure Controls and Procedures***

As of March 31, 2026 (the end of the period covered by this report), our management has carried out an evaluation, under the supervision of and with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15 and 15d-15(e) under the Exchange Act). Based on that evaluation our Chief Executive Officer and Chief Financial Officer have concluded that our current disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our Chief Executive Officer and Chief Financial Officer as appropriate to allow timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives, and management necessarily applies its judgment in evaluating the benefits of possible controls and procedures relative to their costs.

### ***Changes in Internal Controls Over Financial Reporting***

There have been no changes in our internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act, that occurred during our most recently completed fiscal quarter ended March 31, 2026 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
